

HATCHMERE

Access: Open to all.

Location: Hatch Mere is located to on the edge of Delamere Forest, near Norley in Vale Royal (O.S. Grid Ref.: SJ553722). The reserve covers an area of 12.6ha (31.1 acres).

Habitat Summary

Hatch Mere is a Site of Special Scientific Interest (SSSI) and comprises a eutrophic lake with an associated area of fen carr and dry woodland, which is part of the Meres and Mosses Ramsar sites of the north and northwest midlands. These sites make up a series of internationally important areas of open water and peatland.

Don't forget to submit your records via the link on the CWT website reserves page.
