

RED ROCKS MARSH

Access: The reserve is open to all. Please keep to the foreshore and marked paths. Do not enter the reedbed.

Location: The marsh lies just above the high water mark, behind the Royal Liverpool Golf Course, north of West Kirby Parade, Hoylake, Wirral (O.S. Grid Ref.: SJ206880).

Habitat Summary
This SSSI is our only coastal reserve, with sand dunes, reedbeds and marsh. The reedbed is important for many species of wintering birds and the open pools support the rare natterjack toad.

Don't forget to submit your records via the link on the CWT website reserves page.
