

# SEAN HAWKINS MEADOW

**Access:** The reserve is open to all.

**Location:** The reserve (0.74ha) is near Millington, Lymm (O.S. Grid Ref.: SJ726843).

## Habitat Summary

The north-eastern corner and eastern edge of the site is dominated by semi-improved acidic grassland. At the sites northerly extremity a small area of herb rich grassland exists. Below the clough woodland there is an area of species rich marshy grassland. On the southern side of the Agden Brook a small Alder/Ash dominated woodland exists.

Don't forget to submit your records via the link on the CWT website reserves page.
